- ▶ BATTERY STORAGE
- ▶ WALLBOXES
- ▶ ELECTRICAL ENERGY SYSTEMS

Trade fair for sanitation, heating,
air conditioning and electrics

17.–20.03.2026

WHERE POWER MEETS HEAT – SOLUTIONS FOR THE FUTURE

The energy transition is fundamentally changing building technology. With the expansion of renewable energies, electric heat generation is becoming a central element of modern building technology. The demand for electricity-powered, sustainable heating and energy systems is increasing in both modernisation and new builds. Heat pumps, electric heating, PV systems, battery storage and wallboxes, together with intelligent energy management systems, form the basis for a sustainable, grid-friendly and low-carbon energy supply.

Intelligently connected energy: driving innovation with smart energy technology

At SHK+E ESSEN, your products will reach a highly skilled specialist audience from the trades, planning and energy consulting sectors.

Position yourself at the intersection of electricity and heat by securing your spot at SHK+E ESSEN from **17 to 20 March 2026**.

HOW SHK+E ESSEN ACCELERATES YOUR BUSINESS

Top focus topic: sector coupling

Efficient interlinking
of heat, electricity
and mobility

Top opportunity: tap into new target groups

Specialist meet-up for
intelligently connected
heating and energy
systems

Top platform: generate new business

and exchange ideas
with interested trade
specialists

Top industry get- together: decision- makers on site

72 % of trade visitors
are involved in the
purchasing and
procurement process*

Add-on: vibrant industry kick-off

in one of Europe's
largest metropolitan
areas with an
extensive supporting
programme

VISITOR TARGET GROUPS

Professionals across all areas:

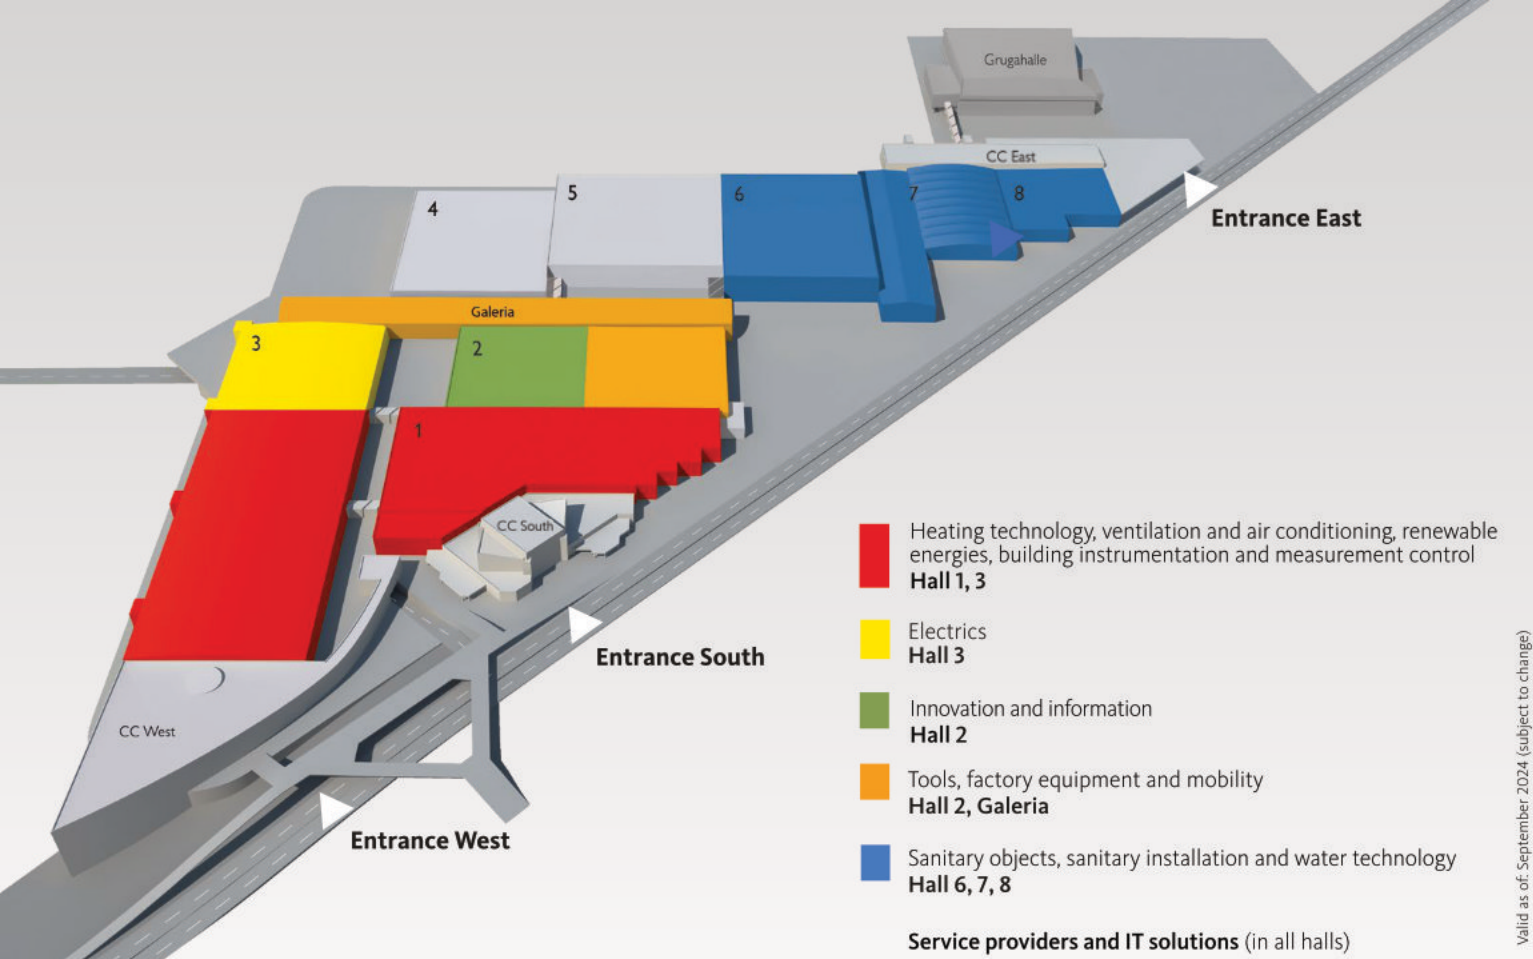

- Skilled tradespeople from the building sector
- Entrepreneurs
- Experts
- Technical building equipment planners
- Architects
- Engineers
- Project developers
- Building co-operatives and property developers
- Utilities, building and energy service providers

56 %

of visitors to SHK+E ESSEN 2024
were interested in the special
forum "Future of Building
Technology"*

39 %

of visitors were interested in
renewable and electrical energy
technology as well as photovoltaics,
electricity and battery storage*

INNOVATIVE TRADE FAIR FORMAT

SHK+E ESSEN has been a key player in the market for over 50 years, evolving into one of the leading trade fairs for sanitation, heating, air conditioning and electrics. It brings together HVAC professionals from the skilled trades and installation, planning and consulting sectors in Germany's largest metropolitan area. As the first industry highlight of the year, SHK+E ESSEN looks to the future, presenting cross-trade solutions, innovative products, special expert forums and specialist areas, as well as a top-notch supporting programme.
