- ▶ PHOTOVOLTAICS
- ▶ ENERGY MANAGEMENT
- ▶ BATTERY STORAGE
- ▶ WALLBOX

**SHK+E**  
ESSEN

Trade fair for sanitation, heating,  
air conditioning and electrics

**17.–20.03.2026**

## EXPLOIT SYNERGIES AND TAP NEW TARGET GROUPS

The SHK+E ESSEN trade fair is the ideal platform for presenting innovative solutions and the latest technologies and processes for sustainable heating and energy systems. As an important sector for implementing the energy transition, the HVAC industry is increasingly concerned with issues such as increasing energy autonomy, security of supply and sustainability. The trade fair will focus on suitable cross-sector solutions for the efficient interlinking of heat, electricity and mobility.

Sustainable, electricity-powered heating and energy systems are becoming increasingly important, both when renovating existing buildings and as new installations. In addition to the heat pump as a starting point, this includes complementary products such as battery storage, energy management systems, photovoltaics, wall boxes and inverters.

Take this opportunity to secure your stand and present your products and innovations to a tailored specialist audience at SHK+E ESSEN.

## HOW SHK+E ESSEN CAN MOVE YOUR BUSINESS FORWARD

### Top focus topic: sector coupling

Efficient interlinking  
of heat, electricity  
and mobility

### Top opportunity: tap- ping new target groups

Specialist meet-up for  
intelligently networked  
heating and energy  
systems

### Top network: expand contacts

Exchange with  
experts on topics  
that are moving the  
industry

### Top industry get- together: decision- makers on site

72 % of trade visitors  
are involved in the  
purchasing and  
procurement process\*

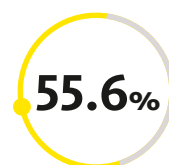

### Add-on: vibrant industry kick-off

In one of Europe's  
largest conurbations  
with an extensive  
supporting programme

### VISITOR TARGET GROUPS

Professionals across all areas:

- Skilled tradespeople from the building sector
- Entrepreneurs
- Experts
- Technical building equipment planners
- Architects
- Engineers
- Project developers
- Building co-operatives and property developers
- Utilities, building and energy services

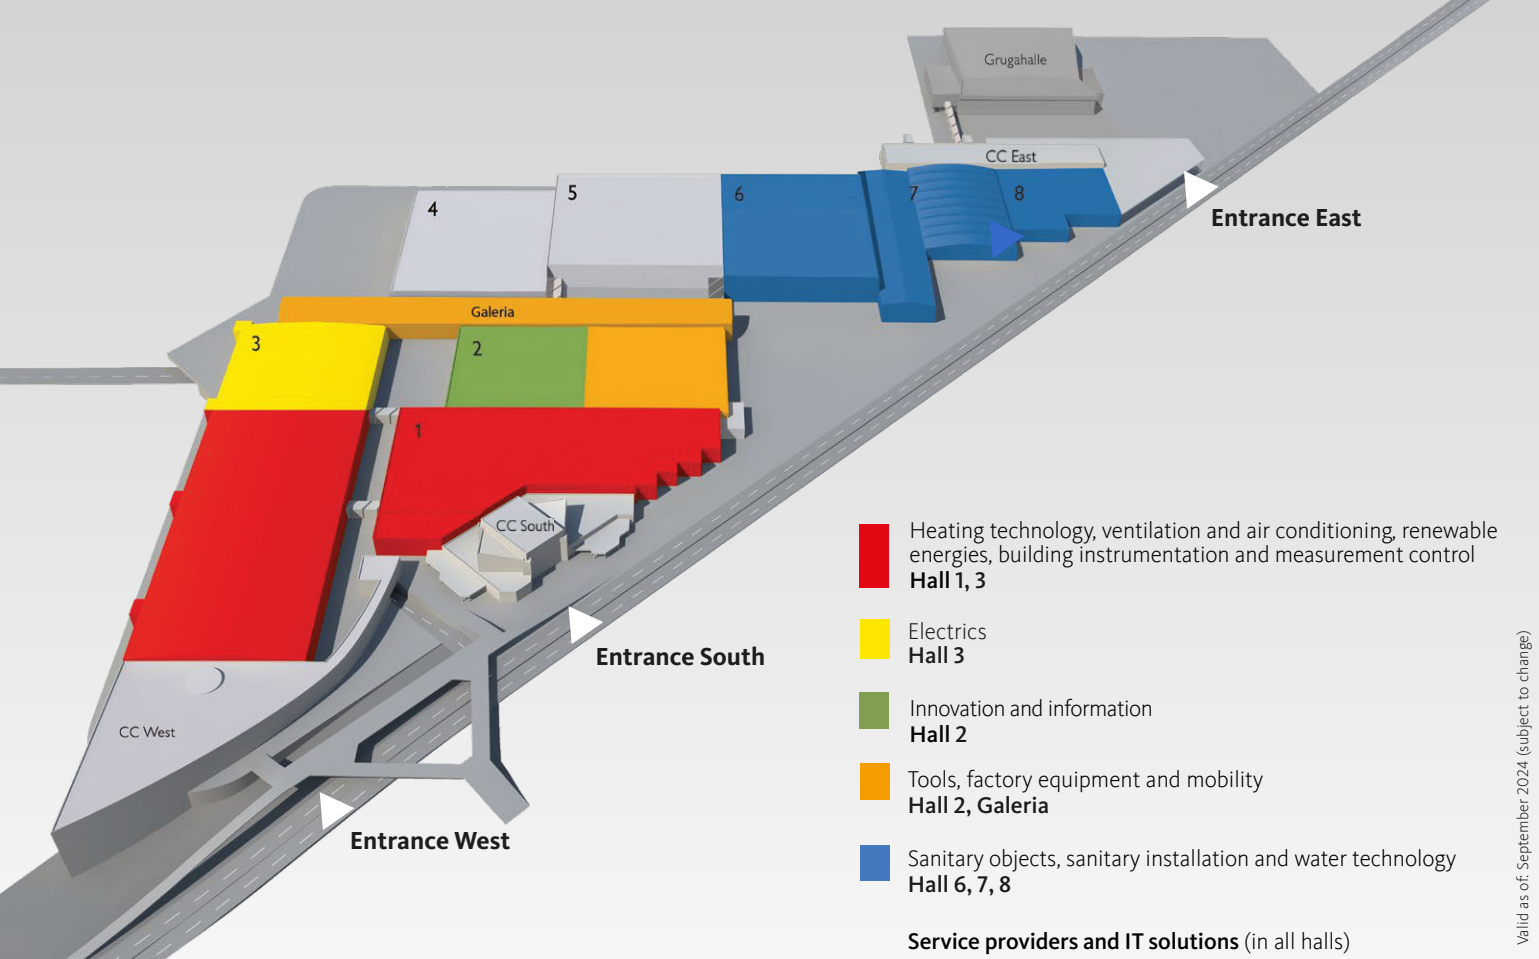

≈ 17,554

of the visitors to SHK ESSEN 2024 were  
interested in the special forum "Future of  
building technology"\*

potential contacts in the area of  
electric power and heating systems/  
partially autonomous heating
