

## Forklift Services at the Messe Essen

Dear Sir or Madam,

In preparation of forwarding your freight to the fairground, we kindly ask you to register and schedule your unloading and loading times in advance. Those loading slots will not be provided via AX-4 in this year, but via our logistics partner DB Schenker.

Please fill out the following form in order to arrange your forklift loadings and other forwarding and storing services via DB Schenker:

[Form for Forwarding Services at the SHK+E 2024](#)

Hotline DB Schenker Office: Fon +49.(0)201.9597910

Loading appointments are available from March 13th 2024 until March 18th 2024 between 8 a.m. and 6 p.m. during set-up and from March 23rd 2024 to March 25th 2024. If a loading service on the evening of March 22nd is needed, please also contact DB Schenker. Appointments before or after those set-up and dismantling days are just available if a special permission by Messe Essen is obtained beforehand.

We will calculate scheduled timeframes for forklift loading services. Please be sure to arrive in time and leave the fairground's loading areas right after the loading process is finished. If any delays are foreseeable, please let us know as soon as possible so we can provide a smooth process for all exhibitors and contractors.

The arranged loading times are scheduled benchmarks. Delays may occur due to traffic both on and nearby the fairground's loading areas and due to unforeseeable events. The Messe Essen is not liable for any expenditures that occur due to delayed loading times.
